

## Software Tools to Support the Systematic Review Process

### PROVISIONAL TIMETABLE

**Trainers:** Rachael McCool, York Health Economics Consortium  
Mick Arber, York Health Economics Consortium  
Mary Edwards, York Health Economics Consortium  
Annette O'Connor, University of Iowa  
Alex Jubb, York Health Economics Consortium  
Angaja Phalguni, York Health Economics Consortium  
Katy Wilson, York Health Economics Consortium  
Julie Glanville, York Health Economics Consortium

- 09.30 Welcome and introduction to the workshop
- 09.45 Group activity
- In groups, delegates will discuss the main process challenges encountered when conducting a systematic review. The groups will each provide feedback in a plenary session and a list of challenges will be drawn up
- 10.15 Identifying software
- An overview of the Systematic Review Toolbox and how to use the resource to search for software tools available to address SR process challenges
- 10:45 Coffee
- 11.00 Software packages to support SRs: Brief overview and presentation of available software packages to support systematic reviews
- 11.15 Covidence
- 12.00 DistillerSR
- 12.30 Lunch

- 13.15 Software packages to support SRs continued  
SysRev  
EPPI-Reviewer
- 14.00 Hands-on with Covidence
- 14.30 Freely-available tools to support systematic reviews
- Presentation on a range of freely available tools to support various aspects of the systematic review process including Rayyan (record selection), RobotReviewer, digitisation tools and meta-analysis tools
  - Hands-on exploration time with selected tools (incl. Rayyan, WebPlotDigitizer and RobotReviewer)
- 15.15 Coffee
- 15.30 Selected search tools for systematic reviews
- Presentation on selected examples of tools with potential to support search-related activities
- 16.00 Discussion and additional hands on time
- 16.30 Close
